

From Davis

I received a call from Richwoods today regarding [REDACTED]. I thought all students who passed summer school were passed on to the next grade. That was not the case with [REDACTED] as I found today in your notes. tht being said, parents enrolled him at Richwoods. [REDACTED] has the following mid-term grades:

Algebra  
 Biology  
 W. History  
 Art  
 PE

What are your thoughts at this point? He will turn 15 in February. Is this setting him up for dropping out as a sophomore if we return him to 8th grade? By the same token, we can't reward apathy. I would appreciate your advice. I am working with [REDACTED].

He did pass 5 of the 6 history exams. He was absent the day of the 6th and never made it up.  
 Julie

 Julie,

[REDACTED] was moved to the 6th grade during an IEP meeting per request from mother. Leisa Carlberg has all the details. However, it would not really make a difference in her classroom because she is full time SE. Interesting situation...be sure to work closely with Leisa.

Mary,  
 I received an e-mail from [REDACTED] mother. She claims [REDACTED] should be in 7th grade this year, not 8th like all of her records show. She says you moved her to 6th grade last year but there is no record in Skyward of it. Do you have any idea what she is talking about?

Subject: Re: student

Julie,

I knew the family was thinking about moving. Do what you feel is best. I would suggest the boundary waiver route if you want to keep her. Also I received that Discover bill. Very interesting. At one time we had a card and always paid it in full but I closed it. There was some confusion and hopefully I have it straightened out. If you receive another one please let me know. I the name of the supervisor and name. Very interesting. Talk to you soon.

MD

[REDACTED], 6th grade, has moved recently to 512 E. Tripp, which is a Von Steuben address. We have been calling for over a week and finally got a return call from mom. She assured us that this was a special deal with you and that you said they could always go to Lindbergh wherever they live.  
Can you help me out?

Subject: Re: student moved

The usual procedure is for the parent to fill out an opt out form for Edison and add at the bottom that the child has been attending lindbergh. This is then approved by my office and transportation is provided. This student is in Lindbergh's count already. Let know if you have any questions.

Subject: student moved

Mary,  
I have a 7th grade student who has moved to Rolling Acres. Is it ok to let her stay the rest of this year as long as parents transport and tell her she will have to enroll there next year? Or, am I setting myself up to keep her as an 8th grader if she stays now....similar to the [REDACTED] girl?  
Any thoughts?
